VOL IX.

HOLBROOK, ARIZONA, SATURDAY, APRIL 23, 1904.

No. 17.

Wanted—A girl to do general house work. Address this office.

J. E. Porter was a business visitor at the County seat Wednesday.

Levi Savage has informed us that he will leave for San Francisco, in the near future.

W. H. Burbage was up from Winslow Friday attending to legal business.

W. H. Clark boarded No. 1 Wednesday morning for Winslow and returned the same day on 8.

Miss Cora Maupin returned Tuesday from Adamana, where she has spent the past week visiting friends.

The residents of the southern portion of the county were surprised by a light fall of snow in that section, Wednesday night.

Burr Porter came down from Show Low Wednesday, and sold his wool to A. A. Vandewort at 8½ cents per pound.

Mrs. C. N. Hathorn has been very ill the past week, but under the care of Dr. Brown is now improving.

Two hundred Filipino scouts, under the command of Capt. Keithley, passed through here Monday; enroute to St. Louis to attend the fair.

Maurice Hartnett who has been employed as a machinist by the Santa Fe, at Winslow, has resigned; accompanied by his wife he left for Oxnard, Cal. on Wednesday, last.

W. H. Mann, an old time operator at this place, arrived here Tuesday morning, from Illinois, and is once more picking lightening for the Western Union.

Glad to see you back, Billy.

Dr. Perkins, supt. of the Indian training school at Truxton Canyon, was here Thursday, while here, he purchased a team of fine driving horses from Frank Campbell. Price paid \$300.

The watertank, recently built by A. M. Boyer for Wm. Scorse, burst last Wednesday and gave that portion of the town a good soaking; as there were no kicks registered we suppose the residents needed the water.

Joe Ward, who has been day operator, here for the past two months has resigned as operator; and has accepted the position of time-keeper for a steel gang on the Grand Canyon Road.

An unknown man fell under a moving train, at Pinto Tuesday morning and was badly mangled. He was put aboard No. 1, the same morning, to be taken to Winslow for medical aid, but died enroute. He was buried at the county's expense.

Sheriff Houck came up from Winslow Thursday night, having in custody Charley Benton, a Navajo Indian, charged with defacing brands on horses. Judge Flinn placed him under \$500.00 bond to await the action of the grand jury, in default of bond he was given lodging in the county jail. There are now five prisoners in the jail. Four are bound over, and one is held as a witness, to appear before the grand jury.

Louie Ghuey was up before Judge Watton yesterday, charged with selling fresh meat without a license. The warrant was sworn out for his arrest by R. C. Creswell, Sanitary officer for this district. W. H. Burbage appeared for the Defendant; the territory was represented by T. F. Moran.

After taking the evidence in the case the defendant's counsel admitted that said defendant sold meat, without a license, and asked that he be acquitted on the grounds, that the territory failed to prove that the meat had not been inspected by a Government meat inspector.

Louie was released.

A seizure of a lot of "cheap" baking powders by the authorities of a neighboring city has exposed the character of the low priced brands of baking powders which many manufacturers are offering throughout the country. The price of the powders first attracted attention to them. Samples were taken and analyzed. The official report of the analysis showed the stuff to be "alum powders," composed chiefly of alum, sulphuric acid and pulverized rock. The powders were declared dangerous to health and several thousand pounds were confiscated and destroyed.

Physicians have frequently cautioned consumers against mixing food with these so-called "cheap" baking powders. They are all found, when analyzed, to contain large percentages of alum and sulphuric acid to which are added various sorts of filling matter, sometimes, both injurious and nasty.

The high class, cream of tartar baking powders, are the most economical and wholesome and should always be selected for use. They will be found cheaper in the end, besides making the food better and more healthful.
